

What should I already know?

- We have different seasons of the year.
- We have different weather in different seasons.

What I will know by the end of this unit?

- I can name Months of the year and seasons.
- I can recognise the differences between the seasons.
- I can recognise the features of different seasons.
- I can identify clothing worn in different weather.
- I can identify weather types in the UK.
- I can say how the weather affects different jobs.

Vocabulary

rain gauge	A tool you can use to show how much it has rained.
season	A time of the year with a particular type of weather.
snow	A type of precipitation usually found in the winter.
temperature	How hot or cold it is.
vegetation	Plants and trees grown together in a certain area.
Weather forecast	Explaining what the weather will be like in the future.

Place Names: Horsforth, England, earth

Locational Terms: Arctic, inside, outside, polar.

Key facts:

- The months of the year: January, February, March, April, May, June, July, August, September, October, November, December.
- The seasons of the UK: autumn, winter, spring and summer

Key Knowledge:

Winter is cold, wet and windy. It snows in some areas and gets dark early.

Spring brings warmer weather. Flowers start to grow and baby lambs are born.

In **summer**, the weather becomes hotter; there is often less rain, but there may be thunderstorms.

The weather starts to get colder in **autumn**. Leaves change colour and fall off the trees.
